

ARIENS APEX 52R

£POA

Made for service providers who mow frequently. Top components in the engine, drive and cutter deck combined with an excellent price-performance ratio.

The 'R' on the APEX 52 R stands for 'rear-discharge'. The mown grass is discharged to the rear, between the wheels. Advantage: Cuttings are not thrown onto paths or into flower beds. With its first-class Kawasaki FR691 V-Twin engine, its highly stable frame and its professional cutting deck with a cutting width of 132 cm, it is ideal for commercial use.
