ARIENS ZENITH E 52

£POA

Installing batteries in a mower is one thing. Achieving the performance, durability and reliability of a proven professional petrol model is another. Our models with the FusionCore replaceable battery system meet this demand.

The ZENITH E 52 is the first professional electric zero-turn mower with interchangeable batteries. Made to mow large lawns for a whole day. Professional cutting deck with 132 cm cutting width. Can be used with side discharge or optional Muchkit. ROPS as standard. An e-professional
