ARIENS ZENITH E 52R

£POA

Installing batteries in a mower is one thing. Achieving the performance, durability and reliability of a proven professional petrol model is another. Our models with the FusionCore replaceable battery system meet this demand.

The ZENITH E 52R is the first professional electric zero-turn mower with interchangeable batteries. Made to mow large lawns for a whole day. The “R” on the ZENITH E 52R stands for “rear-discharge”. Advantage: The clippings are not thrown onto paths or into flower beds. The

Product Details
